I'm an experienced agent and I loved every minute of this book. It gave me some new ideas and a fresh perspective on how I should operate my business. This is the first book I read from cover to cover in a long time. It's an easy read and it was time well spent. Applying the concepts mentioned in this book will make all the difference in my business.

This is exactly what I needed to read, as a new agent coming into the field. It brought me up to speed and got to the real "meat," of what you need to know.

I was impressed with the reviews on this book and after reading it the raves are well deserved. Excellent information!

A "must have" for anyone starting out in real estate! If you follow the suggestions in this book and utilize the tools, how can you fail?

Excellent book!!!!

I have been a broker for 20 years and I felt some of the information is not great. A million dollar producer grosses around 30,000 if they receive a 3% share. That is if they receive an average of 3 percent per transaction side. At that point you need to take out the company split. So it will be around 21,000 to 26,000 before you take off the expenses such as gas, license, board. You end up broke. Also I completely disagree for an agent to go to a 100% company. That will be the ticket to failure. Find the company that offers the best training and leads.
